**CHAIR & HOST**
Chair, WAVO Global Education Hub

**FEATURED SPEAKER**

**Dr Josh Ng**
Real estate professional, educator and author

Learn how real estate professionals can use GenAI safely, responsibly, and critically. The webinar focuses on three practical areas: where GenAI can add value, which risks must be managed, and how critical prompting can test assumptions and professional judgement. It also addresses confidentiality, data protection, hallucinated outputs, weak assumptions, and the need to verify AI-generated insights against market evidence.
